

REVIEW OPTIONS AND PROCEDURES

CLARB and the NC Board allow Candidates the opportunity to review Section C and/or E of the L.A.R.E.

The Redline Review: If the candidate requests a Redline review, the candidate will be able to review a marked-up copy of the failing graphic solutions. The candidate will receive general comments on the weakness exhibited on each problem. The comments are intended to help the candidate define the areas of weakness so that the candidate can better prepare for the next exam. The specific criteria causing the resulting score will not be outlined. If during the redline review process an exam is found to need score verification, the exam section will be submitted to the score verification process at no additional charge to the candidate.

To request a Review, it must be ordered in writing. The Redline Review fee is \$145.00 for Section C and \$145 for Section E. A check must accompany the review order. The Reviews will be ordered from CLARB at the same time that the exams are ordered for the next administration. The Redline review may take up to six (6) weeks for the Board to receive from CLARB. The Board will inform you when your exam review arrives so that arrangements can be made for the review appointment.

Review Procedures

Should you select the review process, you will be required to adhere to the following:

- You must review your solution in a secure area in the presence of a Board employee.
- You are not allowed to bring any materials with you to the review.
- You must sign in for the review procedure.
- You may not make notes or remove any information which may jeopardize the security of the problem.
- You may have a maximum of one (1) hour to review section E and one (1) hour to review section C.

Your written request for review must include:

Your name, address, phone, fax, email address

Section of the Exam (i.e. Section C and/or E) you wish to review

Total payment for the reviews selected, based on the fees noted above

All candidates who take and fail sections C and/or E will automatically be sent this information.
